

App 112 BE

Need urgent help in Belgium?

You can also contact the emergency call centres via app.

1 app, 3 emergency services

In the app, you can easily select the emergency service you need.

Location

Emergency call centres can see where you are.

Additional information

Emergency call centres know directly if you are deaf, with a heart condition or allergic to certain drugs, for instance.

Contact details

Emergency call centres know where you live.

Alarm

If you have fallen or are unconscious and the emergency services do not find you, emergency call centres can ring your mobile phone.

Chat

If you are unable to speak or to hear, emergency call centres activate the possibility to send little messages.

Free of charge

The app is free, as all emergency numbers.

1 Download

Go to the App Store  or Play Store  and search for "112 BE".

Download and install the application on your home screen.

2

- First name
- Surname
- Birth date
- Phone number
- Address
- Who can we contact in case of emergency?
- I am deaf, hearing-impaired or have a speech impediment.

Register

Fill in your name, contact details and additional information.

3 Call

Use the app if you need emergency assistance from fire-fighters, an ambulance or the police, in Belgium.
